

CRISTINA MATERA, MD

In Vitro Lactate Production by the Human Placenta

Larry Levitan MD, Vinette Greenland MD, Cristina Matera MD,
Jeannie Wasserman, Bruce K. Young MD

Abstract, Society of Perinatal Obstetricians. 1987

Spectrum of Illicit Drug Use in Pregnant Women

Wendy Warren MD, Ana Monteagudo MD, Cristina Matera MD
Daniel Fink MD, Harold E. Fox MD

Abstract, Society of Perinatal Obstetricians,

Liver Echo-Densities: A New Sonographic Finding in Congenital
Cytomegalovirus Infection

Ana Monteagudo MD, Cristina Matera MD, Frances Marks MD,
S. Raju MS, Ilan E. Timor MD

Abstract, Society of Perinatal Obstetricians, 1990

Prevalence of Use of Cocaine and Other Substances in an
Obstetric Population

Cristina Matera MD, Wendy B. Warren MD, Maureen Moomjy MD
Daniel Fink MD, Harold E. Fox MD

American Journal of Obstetrics and Gynecology (1990) 163:797

Naltrexone Chronically Stimulates the Pituitary-Ovarian Axis in
Hyperprolactinemic Women

Cristina Matera MD, Pamela Freda MD, Sharon Wardlaw MD

Abstract, The Endocrine Society, June 1992

Dopamine Regulation of POMC Gene Expression in the Hypothalamus

Cristina Matera MD, Sharon Wardlaw MD

Abstract, The Endocrine Society, June 1992

Cornual Pregnancy – Long Term Follow-up of the Lesion in
Nonsurgically Managed Patients

Ilan Timor-Tritsch MD, Ana Monteagudo MD, Cristina Matera MD,
Christina Veit MD

Obstetrics and Gynecology (1992) 79:1044

Dopamine and Sex Steroid Regulation of POMC Gene Expression in the
Hypothalamus

Cristina Matera, MD, Sharon Wardlaw MD

Neuroendocrinology (1993) 58:493

Interleuken-1 Stimulates the Central Release of Corticotropin Releasing Hormone in the Primate

Linna Xia MD, Cristina Matera MD, Michel Ferin MD

Sharon Wardlaw MD

Abstract, The Society for Neuroscience, 1993

New Clinical Applications of HCG Assays

Robert E. Canfield MD, John F. O'Connor Ph.D., Chen Yi MD,

Steve Birken Ph.D., Maureen Hatch Ph.D., Kristin Friedman M.P.H.,

Cristina Matera MD, Amalia Kelly MD

In: "Glycoprotein Hormones: Structure, Function and Clinical Implications:
Eds. JW Lustbader, JD Puett, R Ruddon.

Springer-Verlag New York Inc., 281-292, 1994

Aromatization Is Not Required for Androgen Induced Changes in POMC Gene Expression in the Hypothalamus

Cristina Matera MD, Sharon Wardlaw MD

Abstract, The Endocrine Society, 1994

Aromatization Is Not Required for Androgen Induced Changes in Proopiomelanocortin Gene Expression in the Hypothalamus

Cristina Matera MD, Sharon Wardlaw MD

Mol Br Res (1994) 27:275

Effect of Chronic Opioid Antagonism on the Hypothalamic-Pituitary-Ovarian Axis in Hyperprolactinemic Women

Cristina Matera MD, Pamela U. Freda MD, Sharon Wardlaw MD

JCEM (1995) 80:540

Ultrasound Guidance is Superior to Laparoscopy during Hysteroscopic Surgery

Cristina Matera MD, Amalia C. Kelly MD

Abstract, The American Society for Reproductive Medicine, 1995

Interleukin-1 Stimulates the Central Release of Corticotropin Releasing Hormone in the Primate

Linna Xia MD, Cristina Matera MD, Michel Ferin MD

Sharon L. Wardlaw MD

Neuroendo (1996) 63:79

Effect of Chronic Prolactin Infusion on Pituitary Prolactin and Hypothalamic Proopiomelanocortin

Sharon Wardlaw MD, Jennie Kim, Cristina Matera MD

J Neuroend (1997) 9:81

Ultrasonographically Guided Intrauterine Surgery

Donna R Sesson MD, Amalia C. Kelly MD, Vasilios Goudas MD,
Cristina Matera MD

J Pelvic Surgery (1995) 5:91

Bilateral Tubal Ligation/Sterilization

Cristina Matera MD

In: "Second Opinion: The Columbia Presbyterian Complete Guide to
Surgery". Eric Rose

St. Martin Press, 281-284, 2000
